

5 February 2021

LEGAL & GENERAL UCITS ETF PLC
(the "Company")

RESULT OF THE EXTRAORDINARY GENERAL MEETING

Legal & General UCITS ETF Plc (the "**Company**") wishes to announce that the extraordinary general meeting of L&G Russell 2000 US Small Cap UCITS ETF (the "**Sub-Fund**"), sub-fund of the Company, was held at the registered office of the Company at 6th Floor, 2 Grand Canal Square, Dublin 2, Ireland, on 5 February 2021 at 2:00 p.m. (the "**EGM**"). The resolutions proposed at the EGM were approved as follows:

RESOLUTIONS	FOR	AGAINST	ABSTAIN
Ordinary Resolution 1 That the investment objective and policy of the Sub-Fund be amended in the manner set out at Appendix A to the circular dated 20 January 2021 accompanying the Notice of the EGM.	856	-	-
Number of shares of the Company in respect of which proxy appointments had been validly made:		856	
Number of shares of the Company in respect of which the vote was directed to be withheld:		-	

Accordingly, the proposed resolutions were approved by the Shareholders in attendance or represented at the EGM.

The change to the investment objective and policy of the Sub-Fund, as well as the other proposed changes set out in the circular dated 20 January 2021, will take effect on 22 February 2021.

20 January 2021

Dear Shareholder,

1. Extraordinary General Meeting of the Sub-Fund

Attached is the notice of an Extraordinary General Meeting of the Sub-Fund to be held at 2.00 p.m. on 5 February 2021 (the "**EGM**") and a form of proxy.

As the Sub-Fund uses the International Central Securities Depository ("**ICSD**") model of settlement and The Bank of New York (Depository) Nominees Limited is the sole registered shareholder of shares in the Sub-Fund under the ICSD settlement model, investors in the Sub-Fund should send voting instructions through the relevant ICSD or the relevant participant in an ICSD (such as a local central securities depository). If any investor has invested in the Sub-Fund through a broker/dealer/other intermediary, the investor should contact this entity or its relevant proxy voting agent to provide voting instructions.

2. The business of the EGM

Ordinary Resolution

The purpose of the EGM is to consider, and if thought fit, pass an ordinary resolution of the Sub-Fund (the "**Ordinary Resolution**") to change the investment objective and policy of the Sub-Fund.

As a result of these changes the index of the Sub-Fund will be changed from Russell 2000® Index (the "**Existing Index**") to Russell 2000 0.4 Quality Target Exposure Factor Net Tax Index (the "**New Index**").

The Sub-Fund will also change its index tracking strategy from the current synthetic strategy (whereby the Sub-Fund gains exposure to its index by entering into total return swaps with one or more counterparties) to a physical strategy (whereby the Sub-Fund will gain exposure to its index by directly investing in securities comprising its index, as far as that is possible and practicable).

The changes to the supplement to the prospectus in respect of the Sub-Fund (the "**Supplement**") which are subject of the Ordinary Resolution are set out in **Appendix A**.

Rationale for the change of Index

The rationale for the change of the Sub-Fund's index is that the New Index is designed to provide greater exposure to companies with better quality characteristics by comparison to the Existing Index.

Similarly to the Existing Index, the New Index measures the performance of a basket of stocks within the small-capitalisation segment of the US equity market. The New Index derives its universe from the Existing Index and then applies a quality tilt by adjusting the market cap weight of those constituents with better quality characteristics upwards and adjusting the market cap weights of those with poorer quality characteristics downwards.

The aim of this feature of the methodology of the New Index is to achieve improved risk-return characteristics (i.e. lower volatility and better performance) by aiming to have relatively higher exposure to companies that have lower leverage and higher profitability.

The change of Index will not result in a change to the Synthetic Risk Reward Indicator ("**SRRI**") as reflected in the Key Investor Information Document ("**KIID**") of the Sub-Fund (the SRRI will remain at 6).

Rationale for the change of the index tracking strategy of the Sub-Fund

The rationale for the change of the Sub-Fund's index tracking strategy from the current synthetic strategy to a physical strategy is twofold. First, the Investment Manager considers that the benefits of employing a synthetic replication strategy, such as favourable tax treatment for equity dividends, have largely disappeared following recent changes in US tax laws during the revision of the US Internal Revenue Code (IRC) in 2017. Secondly, the change is a response to the growing investor demand for physical tracking of indices (where this is possible) and the industry prevalence of index-tracking funds employing physical rather than synthetic strategies.

3. Recommendation

The Board believes that the resolution to be proposed at the EGM is in the best interests of the Sub-Fund and the Sub-Fund's investors as a whole and, accordingly, the Directors strongly recommend that you vote in favour of the resolution at the EGM.

4. Other proposed changes to the Sub-Fund which do not require a Shareholder vote and are subject to the Ordinary Resolution being passed

Subject to the Ordinary Resolution being passed, it is proposed that the following changes are also made to the Sub-Fund:

- change to the name of the Sub-Fund to **L&G Russell 2000 US Small Cap Quality UCITS ETF**;
- reduction of the total expense ratio of the Sub-Fund (TER) from 0.45% to 0.30%;
- other amendments as set out in the Appendix B, namely:
 - the updated index description;
 - change to the anticipated tracking error figure as a result of the change from a synthetic to a physical index tracking strategy;
 - change to the derivatives risk management methodology to the commitment approach, it is expected that derivatives will no longer be used by the Sub-Fund to a significant degree as a result of the change from a synthetic to a physical index tracking strategy;
 - change to the minimum subscription / redemption amount (please note that this change is only relevant to authorised participants subscribing for and redeeming the Sub-Fund's shares directly with the Company);
 - update to the dealing procedures to include supplemental provisions in relation to the application of duties and charges that apply to physical index tracking sub-funds of the Company (please note that the dealing procedures are only relevant to authorised participants subscribing for and redeeming the Sub-Fund's shares directly with the Company);
 - update to reflect the valuation provisions applicable to the securities to be physically held by the Sub-Fund; and
 - update to the taxation section to reflect that the Sub-Fund will seek to maintain an "equity fund" status for the purposes of the taxation rules in Germany.

These changes do not require Shareholder approval and are set out in **Appendix B** for notification purposes only.

5. Publication of Results, Effective Date and revised Supplement

The results of the EGM will be announced through the regulatory news service on the London Stock Exchange website and will be published in an appropriate manner in each of the other jurisdictions in which the Sub-Fund is listed on a stock exchange. The results will also be available at <http://www.lgimetf.com/>

If the changes are approved at the EGM they will be effected on or around 22 February 2021, with the exact date to be announced through the regulatory news service on the London Stock Exchange website and to be published in an appropriate manner in each of the other jurisdictions in which the Sub-Fund's shares are listed on a stock exchange (the "**Effective Date**").

The Supplement and the KIID will be updated at the Effective Date or as soon as possible thereafter, subject to the approval by the Central Bank of Ireland and subject to any changes as may be required by the Central Bank of Ireland.

Yours faithfully

Adrian Waters
Director

Appendix A

Amendments to the Supplement that are subject of the Ordinary Resolution

Current Disclosure in the Supplement	Proposed new Disclosure in the Supplement
<p><u>Investment Objective</u></p> <p>The investment objective of the L&G Russell 2000 US Small Cap UCITS ETF (the “Fund”) is to track the performance of the Russell 2000® Index (the “Index”).</p>	<p><u>Investment Objective</u></p> <p>The investment objective of the L&G Russell 2000 US Small Cap Quality UCITS ETF (the “Fund”) is to provide exposure to U.S. small cap companies that are weighted according to their size and quality characteristics.</p>
<p><u>Investment Policy</u></p> <p>In order to achieve this investment objective, the Fund will seek to gain exposure to all of the component securities of the Index in substantially the same weighting as the Index.</p> <p>The Fund will seek to be fully exposed to the performance of the Index using the "unfunded" total return OTC swaps with one or more counterparties (each, a "Long Index Swap") as described under the heading “<i>Unfunded OTC Swap Model</i>” and Schedule II in the Prospectus.</p> <p>The Fund may also, where deemed appropriate or necessary by the Manager, gain exposure to the Index through direct acquisition of the components of the Index, in which case, the Fund will seek to gain exposure to all of the component securities of the Index in substantially the same weightings as the Index or, where it is not possible or practicable to hold all of the securities comprising the Index, the Fund may also invest in securities that are not component securities of the Index, but the risk and return characteristics of which, individually or collectively, closely resemble the risk and return characteristics of constituents of the Index or of the Index as a whole.</p>	<p><u>Investment Policy</u></p> <p>In order to achieve this investment objective, the Fund will seek to track the performance of the Russell 2000 0.4 Quality Target Exposure Factor Net Tax Index (the “Index”) subject to the deduction of the TER and other expenses associated with operating the Fund as further described in the “Fees and Expenses” section of the Prospectus. It will do so by investing primarily in an optimised portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index. The Fund will utilise optimisation/representative sampling techniques in order to achieve the Fund’s investment objective, including by reducing overall transaction costs and taxes. In utilising such techniques, the Fund will aim to identify and invest in a representative sample or sub-set of the component securities of the Index, whose risk and return characteristics closely resemble the risk and return characteristics of the Index as a whole. This is generally achieved through the use of quantitative analysis (i.e. application of mathematical rules-based analysis based on the risk and return characteristics of the Index components) with the level of sampling techniques used by the Fund being determined by the nature of the Index components. It is therefore not expected that the Fund will hold each and every underlying constituent of the Index at all times or hold them in the same proportion as their weightings in the Index.</p> <p>Where consistent with its investment objective, the Fund may also invest in the following additional assets subject to the conditions and within the limits laid down by the Central Bank:</p> <ul style="list-style-type: none"> • equity securities of companies that are not component securities of the Index, but the risk and return characteristics of which, individually or collectively, closely resemble the risk and return characteristics of constituents of the Index or of the Index as a whole; • Depositary Receipts relating either to

Current Disclosure in the Supplement	Proposed new Disclosure in the Supplement
	<p>component securities of the Index or to equity securities of the type referred to in the bullet point immediately above; and</p> <ul style="list-style-type: none"> • FDIs – namely, total return “unfunded” OTC Swaps and exchange-traded equity futures – which may be used for investment purposes (such as gaining exposure to the Index and/or any particular constituents of the Index) in accordance with the terms set out in the sections entitled “<i>Fund Investments</i>”, “<i>Unfunded OTC Swap Model</i>” and Schedule II of the Prospectus. While the Fund may invest up to 100% of its Net Asset Value in total return “unfunded” OTC Swaps, it is not expected that this flexibility will be used. The Fund will only invest in FDIs as provided for in the RMP prepared by the Investment Manager in respect of the Fund and filed with the Central Bank. <p>The Fund may, in addition, employ other techniques relating to transferable securities, including entering into securities lending transactions, investing in repurchase and reverse repurchase transactions and short term money market collective investment schemes, for the purpose of efficient portfolio management only, in accordance with the terms set out in the section entitled “<i>Efficient Portfolio Management Techniques</i>” and Schedule II of the Prospectus. While the Fund may invest up to 100% of its Net Asset Value in repurchase and reverse repurchase transactions it is not expected that this flexibility will be used.</p> <p>The maximum proportion of the Net Asset Value of the Fund that can be subject to securities lending is 10%. The proportion of the Net Asset Value of the Fund that will be subject to securities lending is expected to range from 0% to 10%.</p>

Appendix B

Amendments to be made to the Supplement subject to the Ordinary Resolution being passed

Current Disclosure in the Supplement	Proposed new Disclosure in the Supplement
<p><u>Index Description</u></p> <p>The Index measures the performance of the small-capitalisation segment of the U.S. equity universe. The Index is a subset of the Russell 3000® Index representing approximately 8% of the total market capitalisation of that index. It includes approximately 2000 of the smallest securities based on a combination of their market capitalisation and current index membership. The Index is constructed to provide a comprehensive and unbiased small-capitalisation barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set. All companies that are determined to be part of the U.S. equity market as assigned by FTSE Russell are included in the Russell U.S. indexes.</p> <p><u>Rebalancing frequency</u></p> <p>Annual reconstitution is the process by which all Russell Indexes are completely rebuilt. Reconstitution is a vital part of the creation of a benchmark that accurately represents a particular market segment. Companies may get bigger or smaller over time, or periodically undergo changes in their style characteristics. Reconstitution ensures that companies continue to be correctly represented in the appropriate Russell Indexes. On the last trading day in May each year, all eligible securities are ranked by their total market capitalisation. Reconstitution occurs on the last Friday in June. However, at times this date is too proximal to exchange closures and abbreviated exchange trading schedules when market liquidity is exceptionally low. In order to ensure proper liquidity in the markets, when the last Friday in June falls on the 29th or 30th, reconstitution will occur on the preceding Friday. A full calendar for reconstitution is made available each spring.</p> <p><u>Further information</u></p> <p>The index rules contain further details relating to the index rebalancing and reweighting including the circumstances under which extraordinary adjustments may be made.</p> <p>This is a summary of the principal features of the Index and does not purport to be an exhaustive</p>	<p><u>Index Description</u></p> <p>The Index measures the performance of a basket of stocks within the small-capitalisation segment of the U.S. equity market. The Index derives its universe from the Russell 2000 Index which includes approximately 2000 of the smallest securities based on a combination of their market capitalisation and current index membership. The Index then applies a quality tilt by adjusting the market cap weight of those constituents with better quality characteristics upwards and adjusting the market cap weights of those with poorer quality characteristics downwards such the target active quality factor exposure, set at 0.4, is achieved. Securities with a weight of less than 2 basis points are removed from the Index. Quality factor is defined as a composite measure of a company's profitability and leverage and is determined by FTSE International Limited (the "Index Administrator") using a rules-based approach, as further described in the index methodology document.</p> <p><u>Rebalancing frequency</u></p> <p>The Index is rebalanced on an annual basis on the last Friday in June.</p> <p><u>Further information</u></p> <p>The index rules contain further details relating to the index rebalancing and reweighting including the circumstances under which extraordinary adjustments may be made.</p> <p>This is a summary of the principal features of the Index and does not purport to be an exhaustive</p>

<p><u>Tracking Error</u></p> <p>The estimated anticipated tracking error for the Fund in normal market conditions is 0.002% (annualised).</p>	<p><u>Tracking Error</u></p> <p>The estimated anticipated (ex-ante) tracking error for the Fund in normal market conditions is 0.30% (annualised). Investors are specifically referred to the section headed “Tracking error” in the Prospectus.</p>																
<p><u>Risk Management</u></p> <p><u>Global exposure</u></p> <p>The Investment Manager uses a risk management technique known as relative value-at-risk (“Relative VaR”) to assess the global exposure of the Fund on a daily basis. Relative VaR is a measure of the maximum potential loss that may be incurred by the Fund due to market risk rather than by reference to how much the Fund is leveraged.</p> <p>The Relative VaR of the Fund is determined by dividing the value-at-risk (the “VaR”) of the Fund by the VaR of the Index (the “Reference Portfolio”). This allows the global exposure of the Fund to be compared, and limited by reference to, the global exposure of the Reference Portfolio.</p> <p>The Central Bank requires that the VaR of a Fund must not exceed twice the VaR of its Reference Portfolio. It is not expected that the VaR of the Fund shall exceed twice the VaR of the Reference Portfolio. The one-tailed confidence level of the Fund shall be 99% and the holding period shall be one day. The historical</p>	<p><u>Risk Management</u></p> <p>The Fund’s global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, shall be calculated on at least a daily basis using the commitment approach and, in accordance with the requirements of the Central Bank, may at no time exceed 100% of the Fund’s Net Asset Value. As noted in the “<i>Investment Policy</i>” section above, the Fund’s use of FDI is an ancillary element of the investment policy in that it is an alternative means of gaining exposure to the Index, or one or more of the constituents of the Index, in circumstances where direct investment in the constituents of the Index is not possible, practicable or desirable. Regardless of whether exposure to the underlying constituents is obtained by direct investment in the constituents, or by gaining exposure to the constituents through the use of FDI, the same notional value shall be committed to the investment by the Fund. Accordingly, it is not expected that the Fund will be leveraged.</p>																

Current Disclosure in the Supplement	Proposed new Disclosure in the Supplement
<p>observation period will not be less than one year, however, a shorter observation period may be used when appropriate (e.g. as a result of significant recent changes in price volatility).</p> <p><u>Leverage</u></p> <p>As the Fund uses VaR for the purpose of calculating its global exposure, it is a requirement of authorisation under the Irish Regulations that the Fund disclose the expected level to which the Fund will be leveraged and, where relevant, the possibility that higher leverage levels may apply. For the purpose of this disclosure, it is a requirement of authorisation under the Irish Regulations that <i>leverage</i> be calculated as the <i>full sum of the notionals of all FDI held by the Fund</i>, irrespective of the actual market exposure arising to the Fund as a result of the use of such FDI. Accordingly, leverage calculated in this manner is a reflection of the sum of all notional market exposures achieved through the use of FDI by the Fund as a percentage of the Fund's Net Asset Value. Under this approach, the notional value of the relevant FDI is taken into account along with the current mark-to-market value of the FDI. This interpretation of leverage assumes that <u>all</u> FDI positions held by the Fund are leveraged positions, irrespective of netting or hedging arrangements and even if such FDI positions do not actually create any incremental market exposure for the Fund.</p> <p><u><i>“Reverse Repurchase Agreement” model</i></u></p> <p>Where the Fund utilises the “<i>Reverse Repurchase Agreement</i>” model as the sole method of cash management (as described in the section entitled “<i>Unfunded OTC Swap Model</i>” in the Prospectus), leverage calculated pursuant to the sum of the notionals approach would be comprised of the notional value of the Long Index Swaps as adjusted to reflect their current mark-to-market value (i.e. the unsettled profit or loss on the Long Index Swaps).</p> <p>The proportion of the Fund's Net Asset Value that will be invested in the Long Index Swaps will be 100% at each periodic reset (i.e. the point of time at which the profit or loss on the Long Index Swaps is settled and the notional value of the Long Index Swaps is reset against the Net Asset Value of the Fund). Accordingly, the leverage arising pursuant to the Long Index Swaps at such time will equate to the same (i.e. will be 100% of the Fund's Net Asset Value). However, between the periodic reset dates of the Long Index Swaps, the TER and other expenses paid out of the assets of the Fund will steadily reduce the Fund's Net Asset Value versus the value of the Long Index Swaps. This will cause the leverage arising</p>	

Current Disclosure in the Supplement	Proposed new Disclosure in the Supplement
<p>pursuant to the Long Index Swaps to increase slightly above 100% of the Fund's Net Asset Value until such time as the Long Index Swaps are next reset against the Fund's Net Asset Value. Nonetheless, and on the basis that the leverage arising pursuant to the Long Index Swaps is calculated to the nearest percentile, it is not expected that the leverage arising pursuant to the Long Index Swaps will exceed 100% of the Fund's Net Asset Value.</p> <p><u><i>"Short Basket Swap" model</i></u></p> <p>Where the Fund utilises the <i>"Short Basket Swap"</i> model as the sole method of cash management (as described in the section entitled <i>"Unfunded OTC Swap Model"</i> in the Prospectus), leverage calculated pursuant to the sum of the notionals approach would be comprised of (i) the notional value of the Long Index Swaps as adjusted to reflect their current mark-to-market value (i.e. the unsettled profit or loss on the Long Index Swaps) and (ii) the notional value of the Short Basket Swaps as adjusted to reflect their current mark-to-market value (i.e. the unsettled profit or loss on the Short Basket Swaps).</p> <p>The proportion of the Fund's Net Asset Value that will be invested in the Long Index Swaps will be 100% at each periodic reset (i.e. the point of time at which the profit or loss on the Long Index Swaps is settled and the notional value of the Long Index Swaps is reset against the Net Asset Value of the Fund). Accordingly, the leverage arising pursuant to the Long Index Swaps at such time will equate to the same (i.e. will be 100% of the Fund's Net Asset Value). However, between the periodic reset dates of the Long Index Swaps, the TER and other expenses paid out of the assets of the Fund will steadily reduce the Fund's Net Asset Value versus the value of the Long Index Swaps. This will cause the leverage arising pursuant to the Long Index Swaps to increase slightly above 100% of the Fund's Net Asset Value until such time as the Long Index Swaps are next reset against the Fund's Net Asset Value. Nonetheless, and on the basis that the leverage arising pursuant to the Long Index Swaps is calculated to the nearest percentile, it is not expected that the leverage arising pursuant to the Long Index Swaps will exceed 100% of the Fund's Net Asset Value.</p> <p>The proportion of the Fund's Net Asset Value that will be invested in the Short Basket Swaps will vary between 90% and a maximum of 100% of the Fund's Net Asset Value at each periodic reset (i.e. the point of time at which the profit or loss on the Short Basket Swaps is settled and the notional value of the Short Basket Swaps is reset against the Net Asset Value of the Fund).</p>	

Current Disclosure in the Supplement	Proposed new Disclosure in the Supplement
<p>Accordingly, the leverage arising pursuant to the Short Basket Swaps at such time will equate to the same (i.e. will be between 90% and 100% of the Fund's Net Asset Value). However, between the periodic reset dates of the Short Basket Swaps, the mark-to-market value of the Short Basket Swaps may deviate from the Fund's Net Asset Value by up to 10% until such time as the Short Basket Swaps are next reset against the Fund's Net Asset Value. Accordingly, the leverage arising pursuant to the Short Basket Swaps may be between 90% and 110% of the Fund's Net Asset Value.</p> <p>By combining the leverage arising pursuant to the Long Index Swaps with the leverage arising pursuant to the Short Basket Swaps, it is expected that the Fund will be leveraged between 190% and a maximum of 210%, when calculated to the nearest percentile.</p> <p><u>Combination of the "Reverse Repurchase Agreement" and "Short Basket Swap" models</u></p> <p>Where the Fund utilises a combination of the "Reverse Repurchase Agreement" model and the "Short Basket Swap" model, the actual level of leverage at any given time will vary according to the degree to which the Fund is invested in each of the respective models at such time. Accordingly, the Fund is expected to be leveraged between 100% and a maximum of 210% at any given time.</p>	
<p><u>Minimum Subscription / Redemption Amount</u></p> <p>USD 1,000,000</p>	<p><u>Minimum Subscription / Redemption Amount</u></p> <p>15,000 Shares</p>
<p><u>Dealing Procedures</u></p> <p>The procedures for subscribing for and redeeming of Shares are outlined in the Prospectus. **LEGAL & GENERAL UCITS ETF PUBLIC LIMITED COMPANY
NOTICE OF THE EXTRAORDINARY GENERAL MEETING OF
L&G RUSSELL 2000 US SMALL CAP UCITS ETF**

THIS DOCUMENT IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION.

**If you are in any doubt about the course of action to take, you should consult your
stockbroker, bank manager, solicitor, accountant or other professional advisor.**

NOTICE is hereby given that the Extraordinary General Meeting (the “**EGM**”) of the registered shareholders of L&G Russell 2000 US Small Cap UCITS ETF (the “**Sub-Fund**”) will be held at 2 Grand Canal Square, Dublin 2, Ireland on 5 February 2021 at 2.00 p.m. for the purposes of transacting the following business:

The business of the EGM

To consider, and if thought fit, pass the following resolution as an ordinary resolution of the Sub-Fund:

Ordinary Resolution

1. "That the investment objective and policy of the Sub-Fund be amended in the manner set out at Appendix A to the circular dated 20 January 2021 accompanying the Notice of the EGM"

By order of the Board

Wilton Secretarial Limited
Company Secretary

Dated this the 20th day of January, 2021

Notes:

1. Only the Sub-Fund’s shareholders registered in the register of shareholders of the Company are entitled to attend and vote at the EGM or at any adjournment thereof.
2. As the Company uses the International Central Securities Depository (“**ICSD**”) settlement model, The Bank of New York Depository (Nominees) Limited is the only registered shareholder of the Sub-Fund.
3. The Bank of New York Depository (Nominees) Limited, being the only registered shareholder of the Sub-Fund, is entitled to appoint a proxy or an authorised representative to attend, speak and vote on its behalf. A proxy or an authorised representative need not be a shareholder of the Sub-Fund.
4. Investors in the Sub-Fund should submit their voting instructions through an ICSD or through a participant in the ICSD being their local central securities depository (which in turn should be instructed to submit their voting instructions to the ICSD) to ensure the sole registered shareholder of the Sub-Fund votes in accordance with their instructions. Investors who have invested in the Sub-Fund via their brokers, dealers or intermediaries should contact these entities to provide voting instructions to the ICSD on their behalf. In accordance with their respective rules and procedures, each ICSD is required to collate and transfer all votes received from its participants to the Company’s common depository, The Bank of New York Mellon, London Branch of 160 Queen Victoria Street, London EC4V 4LA, United Kingdom (the “**Common Depository**”), and the Common Depository is, in turn, required to collate and transfer all votes received from each ICSD to The Bank of New York Depository (Nominees) Limited which is obligated to vote in accordance with the Common Depository’s voting instructions. Investors should consult with their brokers, dealers or intermediaries to understand any timing implications for them in this regard.
5. The required quorum at the EGM is one person, being a registered shareholder or a proxy for a registered shareholder, or a duly authorised representative of a corporate registered shareholder. If such a quorum is not present within half an hour from the time appointed for the meeting, or if during a meeting a quorum ceases to be present, the meeting shall stand adjourned to the next day at the same time and place, or to such other day and at such other time and place as the Directors may determine. If at such adjourned meeting such a quorum is not present within half an hour from the time appointed for holding the meeting, then the registered shareholders present shall be a quorum.

6. To be valid, a completed proxy form and any authority under which they are executed must be sent to the Company Secretary at 6th Floor, 2 Grand Canal Square, Dublin 2, Ireland or by e-mail to fundscosec@williamfry.com. Proxy forms and any authority under which they are executed must be received by the Company Secretary not less than 24 hours before the time appointed for the holding of the meeting. Any proxy form deposited less than 24 hours before the time of the meeting (or any adjournment thereof) may be treated as valid at the discretion of the Directors. Failure to return the proxy form by the required time will (subject to the aforementioned discretion of the Directors) result in the proxy form being void and your proxy will not be entitled to vote on your behalf as directed.
7. At the EGM, the resolutions put to the vote of the meeting shall be decided on a poll. On a poll every shareholder in person or by proxy shall have one vote for every share of which he/she is the holder.

**LEGAL & GENERAL UCITS ETF PUBLIC LIMITED COMPANY
L&G RUSSELL 2000 US SMALL CAP UCITS ETF
PROXY FORM**

*I/We(Shareholder name)

of.....(Shareholder address)

being a Shareholder of the above named Sub-Fund hereby appoint

.....(proxy name)

of(proxy address)

or failing *him/her, the Chairman of the meeting or failing him/her any one Director of the Company or failing one of them, Fionnuala Hanrahan, Louise Kennan, James Phelan or Sergey Dolomanov or any other representative of Wilton Secretarial Limited, 2 Grand Canal Square, Dublin 2, Ireland as *my/our proxy to vote for *me/us and on *my/our behalf at the Extraordinary General Meeting of the Company to be held at the registered office of the Company located at 2 Grand Canal Square, Dublin 2, Ireland on 5 February 2021 at 2.00 p.m. and at any adjournment thereof.

Please indicate with an "X" in the space below how you wish your votes to be cast in respect of each Resolution. If no specific direction as to voting is given, the proxy will vote or abstain from voting at his/her discretion.

If you elect to abstain from voting with respect to a particular Resolution, such election will not count as a vote in law and will not be counted in the calculation of the proportion of the votes for and against the Resolution.

RESOLUTION	FOR	AGAINST	ABSTAIN
Ordinary Resolution That the investment objective and policy of the Sub-Fund be amended in the manner set out at Appendix A to the circular dated 20 January 2021 accompanying the Notice of the EGM.

Notes:

1. A shareholder must insert his/her full name and registered address, and the full name and registered address of the relevant proxy, in type or block letters. In the case of joint accounts the names of all holders must be stated.
2. As the Company uses the International Central Securities Depository (“**ICSD**”) settlement model, The Bank of New York Depository (Nominees) Limited is the only registered shareholder of the Company. Investors in the Sub-Fund should submit their voting instructions through an ICSD or through a participant in the ICSD.
3. If you desire to appoint a proxy other than the Chairman or the other listed personnel of the meeting, please insert his/her name and address in the space provided above.
4. The proxy form must:
 - i) in the case of an individual shareholder, be signed by the shareholder or his attorney; and
 - ii) in the case of a corporate shareholder, be given either under its common seal or signed on its behalf by an attorney or by a duly authorised officer of the corporate shareholder.
5. This proxy and any authority under which it is executed must be sent to the Company Secretary c/o The Company Secretary, 2 Grand Canal Square, Dublin 2, Ireland. Alternatively, shareholders may send their proxy forms and any authority under which they are executed by e-mail to fundscosec@williamfry.com. Proxy forms and any authority under which they are executed must be received by the Company Secretary not less than 24 hours before the time appointed for the holding of the meeting. Any proxy form deposited less than 24 hours before the time of the meeting (or any adjournment thereof) may be treated as valid at the discretion of the Directors. Failure to return the proxy form by the required time will (subject to the aforementioned discretion of the Directors) result in the proxy form being void and your proxy will not be entitled to vote on your behalf as directed.
