## Better transparency: open Xetra order book for your IR

Deutsche Börse offers a special investor relations tool to listed enterprises. Companies can create a maximum possible openness and transparency with the help of the Xetra® order book. The open order book – integrated in the homepage within the IR section of a company's website – dynamically displays the ten best bid and ask offers for one's own shares (with a 15-minute delay).

Xetra Orderbook for all shares at boerse-frankfurt.com.

What information can the Xetra order book offer to you?

- Order volumes are visualized as green bars (bid offers) and red bars (ask offers)
- Bid-column: Displays the ten highest bid offers at which market participants are willing to buy a particular share.
- Ask-column: Displays the ten best ask offers at which market participants are willing to sell a particular share.
- 'Bid vol' and 'ask vol': Displays the volume of the respective bids and asks for shares at that particular price; Bid and ask orders together form the spread of a security.

## Valuable information for your investment community audiences

- The open order book helps to assess the up-to-date level of investors' demand
- Provides information about the stock's current liquidity
- Helps to analyse the Level II or depth of market information

## The integration into your IR website is easy free-of-charge

The open order book for your share is accessible via an individual link. This link consists of a general part and the ISIN code for your share.

The integration is executed by your ISIN as an additional code at the end of the following link having the opportunity to choose between the English or German version.

Example showing the integration of Deutsche Börse (English version):

https://bfrank.ariva-services.de/en/deutsche\_boerse/orderbuch.m?isin=DE0005810055 Example showing the integration of Deutsche Börse (German version):

https://bfrank.ariva-services.de/de/deutsche\_boerse/orderbuch.m?isin=DE0005810055
