

Dear FWB participant,

On the 8 and 9 of June trading participants will again have the opportunity to repeat the test for the instrument migration from the existing Xetra simulation system to the Xetra T7 simulation with the instrument DE0005634000. The approach will be as follows:

Simulation Business Day 8 June, 2017:

DE0005634000 is setup as inactive in T7 Simulation. Within the reference data published by T7 via Reference Data Interface (RDI), Reference Data File (RDF) on the Common Report Engine (CRE) as well as the file in the member section, the field Market Segment Status (Tag 2542) has the value "10 (Published)" for DE0005634000

Participants should enter open orders in DE0005634000 in the existing Xetra Classic simulation.

Simulation Business Day 12 June, 2017:

Orders in DE0005634000 in Xetra Classic simulation are deleted. These deletions will have the time stamp 23:59:58 and the deletion reason "suspend" in the order confirmation and in report TC540. The trading phase of DE0005634000 is set to HALT in Xetra Classic simulation.

DE0005634000 is activated in Xetra T7 simulation and available for trading. Within the reference data published by T7 via Reference Data Interface (RDI), Reference Data File (RDF) on the Common Report Engine (CRE) as well as the file in the member section, the field Market Segment Status (Tag 2542) has the value "1 (Active)".

The upcoming Focus Days are as follows:

7 June 2017	Product Halt
7 June 2017	Fix Gateway Failover
9 June 2017	Move products from one partition to another (emergency procedure)
12 June 2017	Market Data Services Failure
11 July 2017	Matching Engine Failover and Failure, EOBI

New Publications

- Circular 053/17: [T7 Release 5.0: Production launch, instrument migration and Members' preparatory activities](#)

Further information

We will publish in mid-June, a list with the instruments, which will be migrated to T7. Once the list has been published on the website we will inform you via circular.

Please note, that on Saturday, the 17 June 2017 between 4:00 - 6:00 pm CEST trading participants can perform the initial technical connection test on T7 5.0 Cash Market. Please refer to section 7 "Connection test for production launch" of Xetra Circular 053/17 for further details on the scope of the initial connection test.

We kindly remind you, to complete and return the production readiness statement for T7 Release 5.0 Cash Market to customer.readiness@deutsche-boerse.com not later than 19 June 2017.

Kind regards
Your Customer Readiness Team
