A. Comparison between the Absorbed Sub-Fund and the Receiving Sub-Fund and impact on shareholders

Preliminary considerations regarding changes to the Receiving Sub-Fund to be implemented on the Change of Benchmark Index Effective Date, as defined below:

The benchmark index of the Receiving Sub-Fund will be changed (such changes, the “**Change of Benchmark Index**”) as follows on the date indicated in Appendix III (the “**Change of Benchmark Index Effective Date**”):

	Before the Change of Benchmark Index Effective Date	From the Change of Benchmark Index Effective Date
Benchmark index of the Receiving Sub-Fund	STOXX Europe 600 ESG Broad Market Index	Stoxx Europe 600 ESG+ Index

Following the Change of Benchmark Index, the Receiving Sub-Fund will offer exposure to 600 leading securities of European developed countries while applying a set of sector exclusion and ESG performance screen for security eligibility and targets a total selection of 80% of the number of securities.

This notice has been prepared based on the revised features of the Receiving Sub-Fund.

The Absorbed Sub-Fund and the Receiving Sub-Fund both are compartments of Luxembourg undertakings for collective investment in transferable securities (UCITS) that exist under the form of a public limited company qualifying as an investment company with variable capital. Accordingly, shareholders in the Absorbed Sub-Fund and the Receiving Sub-Fund should generally benefit from similar investor protection and shareholders rights.

The Absorbed Sub-Fund and the Receiving Sub-Fund share similar key features, including target asset class(es) and geographic exposure, but differ in some respects notably regarding their management processes, on-going charges, distribution policy and ESG features. Although they do not seek to track the same index, the Merging Sub-Funds both offer an exposure to European equity markets. Shareholders in the Absorbed Sub-Fund should benefit from the increased investment capacity in the Receiving Sub-Fund and the economies of scale this Merger should allow to achieve, while getting exposure to the same target asset class(es).

	Absorbed Sub-Fund	Receiving Sub-Fund
Index	STOXX® Europe 600 (NR) Index	STOXX EUROPE 600 ESG+ INDEX
Investment Objective	The Absorbed Sub-Fund is a passively managed, index-tracking UCITS. The investment objective of the Absorbed Sub-Fund is to provide investors with a return that tracks the performance of the STOXX® Europe 600 Net Return (NR) Index (ISIN EU0009658210). There is no guarantee that the investment objective of the Absorbed Sub-Fund can be realised. The expected Tracking Error under normal market conditions is up to 1%.	The objective of the Receiving Sub-Fund is to track the performance of Stoxx Europe 600 ESG+ Index, and to minimize the tracking error between the net asset value of the Receiving Sub-Fund and the performance of the Index. The Receiving Sub-Fund aims to achieve a level of tracking error of the Receiving Sub-Fund and its index that will not normally exceed 1%.
Investment Policy	Indirect replication as further described in the Absorbed Sub-Fund	Direct replication as further described in the Receiving Sub-Fund prospectus. For

	prospectus. For additional information, please refer to Appendix I.	additional information, please refer to Appendix I.
Distribution Policy	Distributing	Accumulating

Appendix I to this notice provides additional information on the key similarities and differences between the Absorbed Sub-Fund and the Receiving Sub-Fund. Shareholders are also invited to carefully read the description of the Receiving Sub-Fund in its prospectus and relevant key investors information document (KIID), which will be available on the following website: www.amundiETF.com.

The Merger of the Absorbed Sub-Fund into the Receiving Sub-Fund may have tax consequences for certain shareholders. Shareholders should consult their professional advisers about the consequences of this Merger on their individual tax position.

B. Conversion to cash

Prior to the Merger, all assets of the Absorbed Sub-Fund will be sold in order to only transfer cash to the Receiving Sub-Fund. Such operation will take place right before the Merger, depending on the market conditions and in the best interest of the shareholders, so that the period between the conversion to cash and the subsequent reinvestment be as short as possible.

During such period before the Merger, the Absorbed Sub-Fund may not be able to comply with its investment limits and investment objective. As a result, there is a risk that the performance of the Absorbed Sub-Fund may deviate from its expected performance for a short-term period before the Merger.

The Absorbed Sub-Fund will bear any transaction costs associated with such operation as and when incurred. Shareholders who remain in the Absorbed Sub-Fund during this period will therefore be subject to such costs.

C. Terms and Conditions of the Merger

On the Merger Effective Date, all the assets and liabilities of the Absorbed Sub-Fund will be transferred to the Receiving Sub-Fund and shareholders of the Absorbed Sub-Fund who have not requested the redemption or the conversion of their shares in the Absorbed Sub-Fund in accordance with this paragraph C. will automatically receive registered shares of the relevant share class in the Receiving Sub-Fund and, if applicable, a residual cash payment. As from that date, such shareholders will acquire rights as shareholders of the Receiving Sub-Fund and will thus participate in any increase or decrease in the net asset value of the Receiving Sub-Fund.

The number of shares of the relevant share class in the Receiving Sub-Fund and, if applicable, the residual cash payment allocated to the shareholders of the Absorbed Sub-Fund will be determined on the basis of the Merger exchange ratio.

The Merger exchange ratio will be calculated on the Merger Effective Date by dividing the net asset value per share of the relevant share class of the Absorbed Sub-Fund dated as at the Last Valuation Date (as defined in Appendix III) by the net asset value per share of the corresponding share class of the Receiving Sub-Fund, as adjusted to take into account the dealing costs associated with the purchase of securities by the Receiving Sub-Fund in accordance with and subject to the provisions of its prospectus. This adjustment aims to neutralize the impact of trading of new securities that would otherwise lead to dilution of the investment of the existing shareholders of the Receiving Sub-Fund and should be consistent with the level of subscription fee that could typically be charged by the Receiving Sub-Fund. For illustration purposes, and although past data communicated is not necessarily indicative of future figures, average swing factors over a 3 month period of time can be found here: <https://www.amundi.lu/professional/Local-Content/Footer/Quick-Links/Regulatory-information/Amundi-Index-Solutions>.

In accordance with the above provision, the value of the shares in the Absorbed Sub-Fund and the Receiving Sub-Fund at the Last Valuation Date will not necessarily be the same. Therefore, while the overall value of their holding should remain the same, shareholders in the Absorbed Sub-Fund may receive a different number of shares in the Receiving Sub-Fund than the number of shares they had previously held in the Absorbed Sub-Fund.

Should the application of the exchange ratio result in an allocation of fractional shares in the Receiving Sub-Fund to a shareholder of the Absorbed Sub-Fund, the value of such holding following the application of the Merger exchange ratio will be rounded down to the nearest whole share and the value of the fractional entitlement will be distributed to the relevant shareholder by way of a residual cash payment in the base currency of the relevant share class of the Absorbed Sub-Fund. Residual cash payments, where applicable, will be made to shareholders of the Absorbed Sub-Fund as soon as reasonably practicable after the Merger Effective Date. The time(s) at which shareholders of the Absorbed Sub-Fund receive any such residual cash payments will depend on the timeframes and arrangements agreed between shareholders and their depositary, broker and/or relevant central securities depositary for processing such payments.

Any accrued income in the Absorbed Sub-Fund will be included in the final net asset value of the Absorbed Sub-Fund and accounted for in the net asset value of the relevant share classes of the Receiving Sub-Fund after the Merger Effective Date.

Appendix II to this notice provides a detailed comparison of the features of the share class of the Absorbed Sub-Fund and the corresponding share class of the Receiving Sub-Fund, which shareholders are invited to read carefully.

In particular, it is brought to the attention of the investors that, whereas the share class of the Absorbed Sub-Fund has a distributing distribution policy, the correspondent share class of the Receiving Sub-Fund that will absorb such share class of the Absorbed Sub-Fund has an accumulating distribution policy.

The cost of the Merger will be fully supported by the management company of the Receiving Sub-Fund.

In order to optimise the operational implementation of the Merger, no subscription, conversion and/or redemption orders relating to shares of the Absorbed Sub-Fund on the primary market will be accepted after the "Cut-Off Point" (as such term is defined in Appendix III). Orders received on the primary market after the Cut-Off Point will be rejected.

Shareholders who do not agree with the terms and conditions of this Merger have the right to redeem or convert their shares at any time free of charges (excluding redemption fees charged by the Absorbed Sub-Fund to cover divestment fees and except for the fees acquired by the Absorbed Sub-Fund to prevent dilution of shareholders investment) within 30 calendar days from the date of this notice.

Nevertheless, placing an order on the secondary market will trigger costs over which the management company of the Absorbed Sub-Fund has no influence. Please note that shares that are purchased on the secondary market cannot generally be sold back directly to the Absorbed Sub-Fund. As a result, investors operating on the secondary market may incur intermediary and/or brokerage and/or transaction fees on their transactions, over which the management company of the Absorbed Sub-Fund has no influence. These investors will also trade at a price that reflects the existence of a bid-ask spread. Such investors are invited to contact their usual broker for further information on the brokerage fees that may apply to them and the bid-ask spreads they are likely to incur.

Such a redemption would be subject to the ordinary rules of taxation applicable to capital gains on the sale of transferable securities.

The Merger will be binding on all the shareholders of the Absorbed Sub-Fund who have not exercised their right to request the redemption or the conversion of their shares within the timeframe set out above. The Absorbed Sub-Fund will cease to exist on the Merger Effective Date and its shares will be cancelled.

The Receiving Sub-Fund aims to achieve a level of tracking error of the Receiving Sub-Fund and its index that will not normally exceed 1%.
Management Process	The Absorbed Sub-Fund seeks to attain the investment objective via indirect replication, in that it will acquire transferable securities and will also employ derivative techniques to compensate for any difference in performance between those securities acquired by the Absorbed Sub-Fund and the Index to be tracked. For example, the Absorbed Sub-Fund will enter into swaps with one or more swap counterparties negotiated on prevailing market conditions, which firstly neutralise the performance	The exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the index.
